Chrome Silver 2

New Generation Chrome Effect Powder Coating

AkzoNobel

Chrome Silver 2

(Interpon 700 EW041D)

Chrome Silver 2 (EW041D) from Interpon Powder Coatings is a new generation chrome effect powder coating exhibiting a bright metallic chrome appearance never before achieved in powder technology.

Providing a clever chrome mimic effect, **Chrome Silver 2** is the environmentally friendly option eliminating the harsh environmental impact of chrome plating, minus the waste and VOC's of liquid paint.

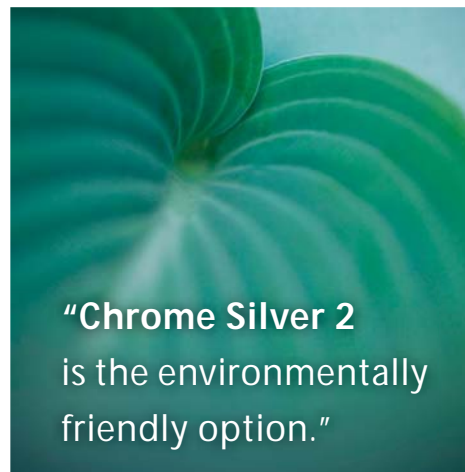

Chrome Silver 2 features outstanding resistance to finger marking and excellent durability when overcoated with our Interpon 600 Clear. Easily cleaned and maintained Chrome Silver 2 is recommended for whenever the brightest chrome-look finish is required.

Ideal for a multitude of interior and exterior applications, **Chrome Silver 2** is perfect for:

- furniture and lighting,
- decorative elements and signage,
- architectural hardware,
- displays and shelving,
- plumbing fixtures,
- small domestic appliances,
- towel warmers, and
- radiators.

Suitable for interior benign environments as a one coat system, it is recommended **Chrome Silver 2** is overcoated with Interpon 600 Clear to protect its bright appearance against damage and dulling in aggressive environments and all exterior applications.

Available ex-stock in 5kg and 20kg boxes, **Chrome Silver 2** is the cost effective, environmentally friendly alternative to chrome plating and liquid paints without aesthetic compromise.
