ADV2001—This is ideal for a pool 1200 high fence, or as a decorative fencing any height. There is a huge range of glass types that can be used to give privacy or special decorator effects.

Compliant pool gates can be either framed or frameless glass, the choice is your.

A "Slumped glass" option allows for designer patterns in the glass and can be a real feature for small areas, giving privacy and appeal.

Using coloured or acid etched glass gives a different feel again, the choices are yours.

ADV2002 and ADV2003— These feature the same strong 44x55 rectangular posts as the ADV2001.

Posts can be epoxy fixed into core drilled holes in concrete, finished with a washer around the base of the post.

Alternative fixing is using our unique side fix bracket, which can be fixed to stair stringers or noggings. This gives flexibility and security.

Welded base plates can also be used when fixing to top of deck and into noggings.
