area

- ✓ Keep your product safe from contact with tools and building materials
- ✓ Protect your door sill and threshold from rubbish, dirt, mortar and heavy weights eg wheelbarrows
- ✓ Keep free of placing loads and weight on any part of the frame
- × **Abrasive / incorrect** cleaners and cleaning methods, cloths containing grit, steel wool or metal scrapers to clean your glass or aluminium WILL DAMAGE your product + void Warranty
- ✓ For help, immediately report any damage to your product to the site office or building supervisor

Installation Instructions

Frames are to be installed plumb, square and free from vertical and lateral pressures.

Door sills must be installed level, fully supported (front and back) and level side-to-side and front-to-back at all times.

Failure to do so could result in operational problems.

WARNING

Ensure **proper drainage** from under windows and doors installed into single skin masonry construction by keeping all external tiles or render to finish lower than the concrete level under your window or door

Remove any factory applied, protective film on the glass or frame of an AMIA product within 30 - 90 days of delivery
