

# Specify Interpon

## Why specify Interpon?

The answer is simple; we specialise exclusively in powder coatings.

As specialists we offer you:

- world class products for both commercial and residential projects;
- products with outstanding durability and performance;
- the most extensive choice of colors and finishes in the industry;
- a strong network of qualified and approved applicators;
- 10, 15 & 20 year global warranties;
- continuous improvement through research and development;
- local sales & technical support;
- the integrity of the global AkzoNobel brand.

Take any one of the reasons outlined above, consider it on its individual merits, and you will see that each stands up alone. Collectively they constitute a formidable argument to specify Interpon powder coatings for your next project.

As an architect you have a vision of your design. Interpon gives you the flexibility, expertise and performance to enable you to achieve it.
