- ✓ **Abrasive** cleaners, cloths containing grit, steel wool or metal scrapers to clean your glass or aluminium WILL DAMAGE your product

Energy Efficient + Coated Glass

Cleaning And Maintenance

- ✓ For help, immediately report any damage to your product to the site office or building supervisor

Installation Instructions

All **frames** are to be installed plumb, square and free from vertical and lateral pressures.

Door sills must be installed level, fully supported (front and back) and level side-to-side and front-to-back at all times.

Failure to do so could result in operational problems.

For your **recommended installation instructions appropriate for this construction type**, please contact AMIA on 02 6652 6955 or visit <https://professional.gjames.com/installation-instructions>

WARNING

To ensure the **proper drainage** from under the windows and doors installed into single skin masonry construction, keep all external tiles or render to finish lower than the concrete level under your window or door

Please **remove any factory applied, protective film** on the glass or frame of an AMIA product within 30 - 60 days of delivery
