Designed with style and security in mind, the AMIA 472 Series Hinged Door offers an attractive choice for main entry, balcony and exterior laundry room doors.

The 472 Series hinged door is the perfect low maintenance alternative to timber entry doors or sliding doors where opening width is limited. Configurations include an expansive set of double doors or the economy of a single door - both can be combined with fixed side lights or overhead high lights to complete your entrance.

This door combines quality hardware with the uncompromising strength of heavy duty aluminium profiles to ensure you enjoy consistent long-term performance for years to come.

Features

- Choice of 100mm or 125mm frame (125mm frame accepts all types of screen doors without the need for an add-on build-out)
 - Full perimeter weather seals provide an excellent barrier to wind and rain
 - The door leaf features a chamfered exterior profile for added style (also reduces the build-up of dust compared to a flat profile)
 - Dedicated glazing bars available to complement colonial or Hampton style designs¹
 - An optional, multi-point lever compression lock offers superior security and ensures optimum compression of the door against the weather seals¹
 - Matching side lights and high lights
 - Aluminium frame-only configurations available to accommodate timber doors
 - 7 year 'peace of mind' guarantee
(Terms and conditions apply)
- ¹ Available upon request, additional cost applies

Example Configurations

Single Door with Screen

Double Doors with Screens

Double Doors

Screens

Flyscreens

AMIA flyscreens are a practical and economical method to cover the open area of your windows and doors, helping to keep your home free from flies. Our flyscreens are constructed using an extruded aluminium frame and standard fibreglass mesh.

Barrier Screens

Barrier screens offer an affordable, intermediate level of security for your home. AMIA's barrier screens feature black Armagril (diamond-shaped, aluminium grille), fibreglass mesh and aluminium frame.

UltrSAFE Screens

UltrSAFE screens provide a superior level of safety and security to your windows and doors. The integral high-tensile, stainless steel mesh is discrete in appearance ensuring your views are unhindered.

IMPORTANT

Don't let the opportunity pass to consider your glass options.

When specifying the windows and doors for your home, you'll make decisions in relation to ventilation, light, aesthetics and operation – all very relevant considerations. There is however another equally important consideration that is often overlooked, and that is the type of GLASS you choose. The selection of a 'performance' glass can address such issues as heat gain, energy efficiency, security, noise and glare reduction – all of which are central to your comfort and the overall liveability of your home.
